Art Unit: 1771

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-6,8,10,12,13,19 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 632087 for the reasons of record.
3. Claims 1-6,10,12,13 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 488,389 for the reasons of record.
4. Claims 1,7,11,14-18,21-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over EP 632087 in view of EP 630736 for the reasons of record..
5. Applicant's arguments filed 3/10/04 have been fully considered but they are not persuasive. Applicant argues that EP '087 and 389 disclose a prepeg rather than a perform. However, a perform is generally defined as:

PREFORM: 1. Fabrics that have been stacked in multiple layers and bonded with a stitching yarn or by other means. The preform may be cut into a shape for subsequent molding into a composite part. 2. A preshaped nonwoven made by distributing fibers over a screen in the approximate contour of the finished part. 3. A preshaped, three-dimensional reinforcement made via braiding, weaving, or knitting or some combination of these. 4. A formed but not fully consolidated stack of prepeg layers which have the contour of the finished product. 5. The first stage in the production of blow-molded products such as PET bottles.

The materials disclosed in EP '087 and '389 meet the first definition because they are fabrics which have been stacked in multiple layers and bonded and they also meet the fourth definition since the references teach composite materials which are comprised of multiple layers of the prepeg. Since the claims do not include additional structure or limitations which would impart a different definition to the word "perform" the generally accepted definitions set forth above are applied and the rejections are maintained.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1771

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
